

St Anne Line Catholic Infant School

Computing and E-safety Vision Statement

This Vision Statement is designed to express our future for Computing and E-Safety at St Anne Line Catholic Infant School.

High quality resources have been successfully embedded into the school to ensure children have digital resources at their fingertips and teachers can use the most up to date technology to support teaching and learning.

Our vision is that:

Learners:

- Will have access to a creative, broad and balanced Computing curriculum that includes regular E-Safety lessons.
- Will have access to high quality digital learning resources whenever and wherever they are needed.
- Will know how to stay safe and how to behave when they are using the Internet and technology.

Parents:

- Will have enhanced opportunities to participate in their child's education and school events through ICT.
- Will know how to support and keep their child safe when using technology at home.

School Staff:

- Will have continued professional development to ensure they reach, at least, nationally defined standards in ICT competence.
- Will apply competencies in order to teach a high quality Computing curriculum and support the learning of all pupils.

Governors:

- Will provide support and opportunities for Computing and ICT in the school with a link governor for Computing and E-Safety.

This Vision Statement has been created by all school staff and governors and will be reviewed as these statements are mastered to ensure that the school is continuously moving forward in this technological age.
